Sports physiology clinical trials expert joins Scientific Advisory Board

Melbourne Australia 28 March 2019 – Invictus BioPharma Limited, the Company commercialising an innovative non-invasive direct drug and vitamin delivery platform, today announced the appointment of internationally-recognised sports physiology clinical trials expert Dr Jordan Moon to its Scientific Advisory Board.

Dr Moon is an acknowledged expert on sports nutrition and exercise science who has conducted more than 45 clinical trials for a number of nutritional supplements and biopharmaceutical companies.

He has published over 140 peer-reviewed scientific articles on sports nutrition, supplements, exercise science, body composition and changes regarding age and fitness level.

Invictus BioPharma Scientific Advisory Board Chair and Chief Scientific Officer, Dr David Kingston said, “ Dr Moon will play an integral role in the design of our pending clinical studies for our exercise dietary supplement which has been shown to reduce delayed onset muscle soreness and improve muscle recovery after exercise.”

Dr Moon said, “I am impressed with the rigour Invictus has applied to substantiating the claims for its nutraceutical products. I look forward to helping the Scientific Advisory Board guide the important clinical studies and strengthening the scientific support behind these products being launched in the United States.”

About Invictus BioPharma Ltd.

Invictus BioPharma Ltd. is an Australian public unlisted biotechnology company developing and commercialising novel dietary supplements and prescription medicines based on natural products (tocotrienols) which have wide therapeutic potential, including: Delayed Onset Muscle Soreness, muscle recovery, exercise endurance, Non-Alcoholic Fatty Liver Disease (NAFLD), Non-Alcoholic SteatoHepatitis (NASH), pancreatic cancer, hyperlipidaemia, hypertension and diabetes. Invictus BioPharma owns and controls patent and other intellectual property rights for novel approaches to non-invasively delivering tocotrienols directly to the target tissues. The Company has a product development program for evidence-based nutraceuticals and a clinical development program for prescription medicines. For more information see: www.invictusbiopharma.com

About Dr Jordan Moon

Dr. Jordan Moon is the Executive Director of Research and Education at ImpediMed Inc., a medical device company focusing on fluid and tissue changes in clinical and non-clinical populations. He received his PhD in Exercise Physiology from The University of Oklahoma and has served as an Associate Professor and Program Director for Sports Management and Sports & Health Sciences at American Public University and American Military University as well as serving as the Department Chair of Sports Exercise Science and Human Performance Laboratory Director at the United States Sports Academy. Outside of academia, he directed the building and development of the MusclePharm Sports Science

Institute and oversaw all clinical trials. With MusclePharm and Impedimed, he has directed and funded over 45 clinical trials and as a laboratory director has acquired over 20 grants. Throughout the last decade, Dr. Moon has presented over 50 lectures at multiple scientific conferences and events both nationally and internationally and has published more than 140 research articles and abstracts in dozens of journals along with writing a book chapter and publishing a book in the areas of sports nutrition, supplements, exercise science, body composition, body water, and changes regarding age and fitness level.
